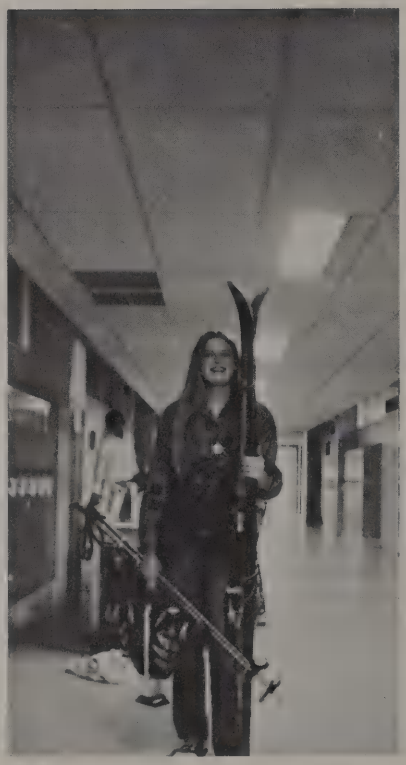
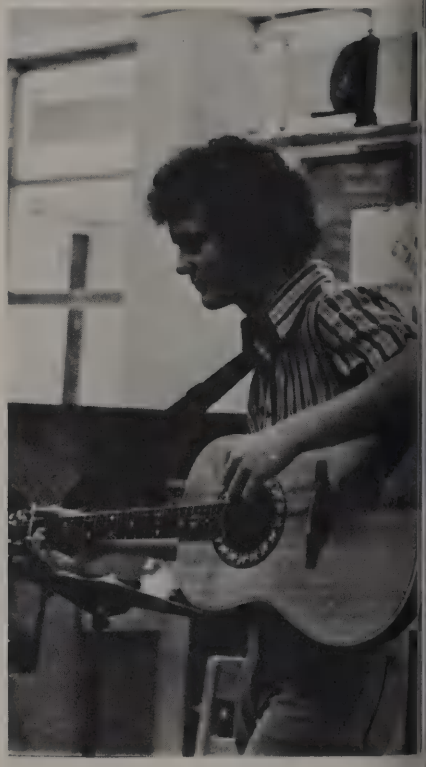
SCAN Heads Council Projects

The 1973-1974 calendar year for the W. T. White Student Council has initiated such programs as Project SCAN, a dynamic, innovative approach in exposure learning. The idea of Project SCAN was formulated late last year when several students proposed the disbanding of all present courses for two days and substituting in their place a special curriculum designed from a student interest survey. The purpose was to give students exposure to a wide variety of a sports, hobbies, crafts, and scholastic endeavors that might otherwise remain unknown to a great majority of students.





Top, Student Council members prepare SCAN schedules. Courses offered in Project SCAN included: *(Above)* wrestling, *(Center)* skiing, and *(Right)* guitar.
